Hiking

The tour leads from the Mittelberg district of Schwendle, climbing moderately on an alpine path, past the Wieselalp mountain pastures, into the stream towards the waterfall and up into a large cirque bordered by the Elferkopf and Schafalpenköpfe peaks. From there, the trail climbs steeply and a head for heights are required here. From the Kemptner Scharte, the trail descends to the Mindelheimer Hütte, which is a good environment characterized by rocky and boulder terrain to the saddle, from where the trail branches off to the right to the summit of the Walchhorn. After the three alpine huts. After the Obere Gemstelhütte, the stony hiking trail, briefly secured with wire ropes in a gorge, leads through a belt of mountain pastures past Bernhards Gemstelalp and through the Gemsteltal valley to the Mittelberg district of Böldmen.

From the starting point at the car park in Schwendle a moderately ascending trail leads us into the Wildental. From the Fluchtalpe we keep riding on a steep and demanding. When the Kemptener Scharte (wind gap) is reached, we descend to the Mindelheimer Hütte. From there we follow the so called Mindelweg which leads us on serpentines to the Sterzer Hütte and past the "Sterzer Seele" to the Obere Gemstelhütte. The descent is via the Hintere Gemstelhütte to the river mouth, we follow the Breitach downriver to the Schwand bridge. After 10 minutes we return on the asphalt road to the starting point.

The hiking trails in the Wildental are very popular. For the sake of the hikers no cyclists go to the Wildental. Thank you for your understanding!
Weather-appropriate clothing and sturdy footwear. Hiking poles recommended.

Tips

With a bit of luck, you may even see ibexes on this tour.

Thanks to the overnight accommodation at the Mindelheimer Hut, the tour can also be divided into two stages. With an overnight stay, metre-high Walser Geißhorn can also be done in one day. However, the duration from the Geißhornsattel to the summit should not be with an impressive 360-degree view.

How do you consciously experience nature?

Nature is so much more than the backdrop for unforgettable mountain experiences. It is a habitat for animals and plants. It provides valuable raw materials such as wood, it also protects against avalanches and mudslides and regulates the climate. It is up to us to see what we can achieve more:

Smart in NATURE

CONSCIOUS together

EXPERIENCE foresight

Smart in NATURE

Take a deep breath and recharge your batteries, be outside and feel free. When we enjoy nature, we are guests in the living room of someone's living space with you in the future too.

Stay on paths and marked routes

If you follow the marked paths and routes, you are sure to come to new favorite places. In this way you also respect protected areas, any disturbance unnecessarily costs the wild animals the strength they need to survive.

Avoiding twilight times

Standing on a mountain at sunrise is a special experience. The morning and evening hours are also the time when most wild animals are avoided, please stay on the marked path, do not use a bright headlamp and enjoy the silence.

Stay clean & take rubbish with you

It goes without saying: You take rubbish with you again, on the mountain and in the valley. Please also organic waste, because it is also at home or in your accommodation - please remember that there are no rubbish bins in public spaces in Kleinwalsertal.

On the natural toilet

If you are looking for a quiet place, please be at least 50 m away from water. Bury excrement or cover it with a large stone. Use fallen

On tour with a dog

Are you always in control of your four-legged partner, even if he gets his nose for marmots, deer or other wild animals? You are both on attack by a grazing animal is foreseeable: leash off immediately. There are numerous dog stations in the valley for the disposal of dog waste and fields contaminated by the feed and makes grazing cattle sick.

CONSCIOUS to each other

Consideration for other athletes and those looking for relaxation

Everyone loves to enjoy a special piece of earth for themselves. But most of the time we are not traveling alone. No problem, because in a friendly manner, provide support when someone needs help and always give a smile. So nothing stands in the way of friendly cooperation and

Appreciating the preservation of the cultural landscape

Alpine landscapes are touching with their contrast: Imposing peaks and natural forests alternate with gentle valleys, well-tended meadows at altitudes is no coincidence, but the result of an interplay of natural and cultural landscapes. Behind this is the work of farmers, alpine huts, the attractiveness of the recreation and leisure area and the diversity of species are preserved. We already say thank you if we stay on the

EXPERIENCE farsighted

Safe on tour - for you and others

Whether on a ski or snowshoe tour in winter or on a mountain tour in summer, anyone who is out and about in alpine terrain has to be equipped with the right equipment.
