

WINTER CIRCULAR HIKE AROUND THE STRAUSSBERG

medium

Winter Hiking

TOUR DESCRIPTION

In front of the Gasthof Bergblick, a groomed winter hiking trail leads towards Straußberg. On this section, you can enjoy a particularly beautiful view of the surrounding mountains. From the settlement in Straußberg, the path continues past the individual farms Schmalzloch and Fuchsloch downhill to the Breitach. There, the trail gently ascends as you follow the wintry Breitachweg valley inward back to the starting point at Schwende.

ROUTE DESCRIPTION

From the center of Riezlern over the Fellhornweg to the old Schwendebrücke, then right up to the district of Schwende, out of the valley further into the Straußbergweg. From the hamlet of Straussberg there is a beautiful panoramic view of the Kleinwalsertal and the Nebelhorn. We can see the Waldhaus inn. Cross Breitach and get up to the bus stop on Landesstraße.

RECOMMENDED EQUIPMENT

EMERGENCY NUMBERS

140 Alpine Emergencies Austria wide

144 Alpine Emergencies Vorarlberg

112 Euro-Emergencies (works with every mobile network)

www.vorarlberg.travel/sicherheitstipps

Sturdy shoes and hiking poles for steep sections recommended. When necessary, rainproof clothing and head covering.

FURTHER INFO & LINKS

Tips

Alternatively, the hike can be shortened by following the hiking trail from Waldhaus up to the main road. From here, the Walserbus line 1 runs.

How do you consciously experience nature?

Nature is so much more than the backdrop for unforgettable mountain experiences. It is a habitat for animals and plants. It provides valuable raw materials such as wood, it also protects against avalanches and mudslides and regulates the climate. It is up to us to see what we can achieve more:

Smart in NATURE

CONSCIOUS together

EXPERIENCE foresight

Smart in NATURE

Take a deep breath and recharge your batteries, be outside and feel free. When we enjoy nature, we are guests in the living room of someone's living space with you in the future too.

Stay on paths and marked routes

If you follow the marked paths and routes, you are sure to come to new favorite places. In this way you also respect protected areas, any disturbance unnecessarily costs the wild animals the strength they need to survive.

Avoiding twilight times

Standing on a mountain at sunrise is a special experience. The morning and evening hours are also the time when most wild animals are avoided, please stay on the marked path, do not use a bright headlamp and enjoy the silence.

Stay clean & take rubbish with you

It goes without saying: You take rubbish with you again, on the mountain and in the valley. Please also organic waste, because it is common at home or in your accommodation - please remember that there are no rubbish bins in public spaces in Kleinwalsertal.

On the natural toilet

If you are looking for a quiet place, please be at least 50 m away from water. Bury excrement or cover it with a large stone. Use fallen

On tour with a dog

Are you always in control of your four-legged partner, even if he gets his nose for marmots, deer or other wild animals? You are both on guard. An attack by a grazing animal is foreseeable: leash off immediately. There are numerous dog stations in the valley for the disposal of dog waste and fields contaminated by the feed and makes grazing cattle sick.

CONSCIOUS to each other

Consideration for other athletes and those looking for relaxation

Everyone loves to enjoy a special piece of earth for themselves. But most of the time we are not traveling alone. No problem, because in a friendly manner, provide support when someone needs help and always give a smile. So nothing stands in the way of friendly cooperation and

Appreciating the preservation of the cultural landscape

Alpine landscapes are touching with their contrast: Imposing peaks and natural forests alternate with gentle valleys, well-tended meadows. The diversity of altitudes is no coincidence, but the result of an interplay of natural and cultural landscapes. Behind this is the work of farmers, alpine herders. The attractiveness of the recreation and leisure area and the diversity of species are preserved. We already say thank you if we stay on the

EXPERIENCE farsighted

Safe on tour - for you and others

Whether on a ski or snowshoe tour in winter or on a mountain tour in summer, anyone who is out and about in alpine terrain has to be prepared. The right equipment. Correctly assessing alpine dangers requires a lot of knowledge and experience. Why not learn from professionals? Nature experience map, scale 1:12,000; Kleinwalsertal tour map (with hiking guide), scale 1:25,000; DAV hiking map, scale 1:25,000; the re
