

SKI TOUR FROM SCHWENDLE TO OCHSENLOCH

hard

Ski Touring

TOUR DESCRIPTION

Everything you could wish for in a ski tour: With nearly 1,000 meters of elevation gain, the ascent is sporty and physically demanding. Far from the valley, once at the top, you're rewarded with stunning views of the Kleinwalsertal, the Heuberg Ridge, and the Hoher Ifen – followed by an unforgettable descent. The Wildental valley is also popular in winter with snowshoers and winter hikers. Especially on the lower section of the tour, up to just before the descent, ensure a respectful coexistence among all winter sports enthusiasts. With a bit of mutual awareness, there's plenty of "Experience nature consciously" stands for a respectful attitude towards both fellow winter sports lovers and the natural environment. The tour passes through protected wildlife zones and forest-wildlife conservation areas.

ROUTE DESCRIPTION

Ascent

The ascent is from the bus stop/Schwendle car park. Along the winter hiking trail "Wildental" we come to the inner Wieselpe. From here we go up to the Flühalp. We continue straight towards the waterfall, just before the forest we cross the meadow on the right, now we are at the forest edge in the direction of the waterfall. The forest path leads us to the rear Wildentalpe, from here we go left past the head of the cirque of the Ochsenloch we get directly to the Scharte (caution! Only climb the cirque in the best conditions - danger of avalanches!)

Descent

After the cirque, we turn right in the ski/snowboard direction (not straight ahead - rocky slopes and forest!) & drive past the middle & summer hiking trail we get to the Flüchtalpe & still enjoy the last slope. The summer hiking trail is easy to find (from the front Wildentalpe).

RECOMMENDED EQUIPMENT

In particular the steep grass slopes in the upper area require a safe avalanche situation, so take the [avalanche report](#) into account! The specific information. Away from secured pistes, everyone is responsible for finding out about alpine dangers, especially avalanches. Ski touring

make changes to the route necessary. For experienced ski tourers.

EMERGENCY NUMBERS

- 140 Alpine Emergencies Austria wide
- 144 Alpine Emergencies Vorarlberg
- 112 Euro-Emergencies (works with every mobile network)

www.vorarlberg.travel/safety-tips

Careful planning, study the avalanche report:(www.vorarlberg.at/web/land-vorarlberg/contentdetailseite/-/asset_publisher/qA6AJ38txu0k/c) shovel and probe (standard), risk assessments on site always undertake, complete ski touring training.

FURTHER INFO & LINKS

How do you consciously experience nature?

Nature is so much more than the backdrop for unforgettable mountain experiences. It is a habitat for animals and plants. It provides valuable raw materials such as wood, it also protects against avalanches and mudslides and regulates the climate. It is up to us to see what we can achieve more:

Smart in **NATURE**

CONSCIOUS together

EXPERIENCE foresight

Smart in NATURE

Take a deep breath and recharge your batteries, be outside and feel free. When we enjoy nature, we are guests in the living room of their living space with you in the future too.

Stay on paths and marked routes

If you follow the marked paths and routes, you are sure to come to new favorite places. In this way you also respect protected areas, any disturbance unnecessarily costs the wild animals the strength they need to survive.

Avoiding twilight times

Standing on a mountain at sunrise is a special experience. The morning and evening hours are also the time when most wild animals are avoided, please stay on the marked path, do not use a bright headlamp and enjoy the silence.

Stay clean & take rubbish with you

It goes without saying: You take rubbish with you again, on the mountain and in the valley. Please also organic waste, because it is common at home or in your accommodation - please remember that there are no rubbish bins in public spaces in Kleinwalsertal.

On the natural toilet

If you are looking for a quiet place, please be at least 50 m away from water. Bury excrement or cover it with a large stone. Use fallen

On tour with a dog

Are you always in control of your four-legged partner, even if he gets his nose for marmots, deer or other wild animals? You are both on guard against an attack by a grazing animal is foreseeable: leash off immediately. There are numerous dog stations in the valley for the disposal of dog waste and fields contaminates the feed and makes grazing cattle sick.

CONSCIOUS to each other

Consideration for other athletes and those looking for relaxation

Everyone loves to enjoy a special piece of earth for themselves. But most of the time we are not traveling alone. No problem, because in a respectful manner, provide support when someone needs help and always give a smile. So nothing stands in the way of friendly cooperation and

Appreciating the preservation of the cultural landscape

Alpine landscapes are touching with their contrast: Imposing peaks and natural forests alternate with gentle valleys, well-tended meadows. The fact that at high altitudes is no coincidence, but the result of an interplay of natural and cultural landscapes. Behind this is the work of farmers, alpine herders. The attractiveness of the recreation and leisure area and the diversity of species are preserved. We already say thank you if we stay on the

EXPERIENCE farsighted

Safe on tour - for you and others

Whether on a ski or snowshoe tour in winter or on a mountain tour in summer, anyone who is out and about in alpine terrain has to be equipped with the right equipment. Correctly assessing alpine dangers requires a lot of knowledge and experience. Why not learn from professionals?

For the planning of ski tours we recommend the maps of the German Alpine Club.
