

medium

This topographic map illustrates the Grossglockner mountain range in Austria. The terrain is characterized by steep slopes and numerous peaks. A red line traces a route through the area, starting from Bad Gastein in the northeast and heading south towards the Hohe Tauern National Park. Key locations and peaks are labeled with their elevations: Hochstarzel (1974m), Unspitze (1926m), Derrenjoch (1883m), Derraköpfe (1843m), Wannenberg (1830m), Güntlespitze (2092m), Hintere Untschenspitze (2046m), Untschenpass (1854m), Gamsfuß (1990m), Älpelesspitze (2161m), Heiterberg (2188m), Weißer Schöfen (2145m), Höferspitze (2131m), Heilta (1932m), and Hochalppass (1938m). The map also shows the Untschenspitze (2135m) and the Grossglockner (2980m) in the background. The area is surrounded by green forests and blue water bodies, with a yellow line indicating a road (L200) near Hinter Hopfreen.

At the end of the Bäruntal at the Hochalppass you find the Seekopf. Baad is also popular with winter hikers in winter. Particularly on the first section to the Bärjunthütte, a little more consideration for the environment and enough space and enjoyment of nature is guaranteed for everyone. Experiencing nature consciously stands for a respectful coexistence among winter sports enthusiasts and towards nature. The route is suitable for all levels of winter.

Ascent

The tour starts in the mountain village of Baad, which can be easily reached by bus (Walserbus from Oberstdorf). First we follow the valley to the left and continue on the "Brunnenweg" (not scattered). After about 30 minutes we reach the Bärgunthütte (open in winter). From the Hochalp it goes up the ridge with a view of the Bärgunttal & we have reached the top.

Beware of little snow - streams in the area of the Hochalppass!

Departure

The descent is along the ascent track. When you arrive at the Bärgunthütte, you go back to Baad via the Brunnenweg branching off to the left.

In particular the steep grass slopes in the upper area require a safe avalanche situation, so take the **avalanche report** into account! The spec of the information. Away from secured pistes, everyone is responsible for finding out about alpine dangers, especially avalanches. Ski touring make changes to the route necessary. For experienced ski tourers.

EMERGENCY NUMBERS

- 140 Alpine Emergencies Austria wide
- 144 Alpine Emergencies Vorarlberg
- 112 Euro-Emergencies (works with every mobile network)

www.vorarlberg.travel/safety-tips

Careful planning, study the avalanche report:(www.vorarlberg.at/web/land-vorarlberg/contentdetailseite/-/asset_publisher/qA6AJ38txu0k/c shovel and probe (standard), risk assessments on site always undertake, complete ski touring training.

How do you consciously experience nature?

Nature is so much more than the backdrop for unforgettable mountain experiences. It is a habitat for animals and plants. It provides valuable raw materials such as wood, it also protects against avalanches and mudslides and regulates the climate. It is up to us to su can achieve more:

Smart in **NATURE**

CONSCIOUS together

EXPERIENCE foresight

Smart in **NATURE**

Take a deep breath and recharge your batteries, be outside and feel free. When we enjoy nature, we are guests in the living room of s their living space with you in the future too.

Stay on paths and marked routes

If you follow the marked paths and routes, you are sure to come to new favorite places. In this way you also respect protected areas, any disturbance unnecessarily costs the wild animals the strength they need to survive.

Avoiding twilight times

Standing on a mountain at sunrise is a special experience. The morning and evening hours are also the time when most wild animals avoided, please stay on the marked path, do not use a bright headlamp and enjoy the silence.

Stay clean & take rubbish with you

It goes without saying: You take rubbish with you again, on the mountain and in the valley. Please also organic waste, because it is co at home or in your accommodation - please remember that there are no rubbish bins in public spaces in Kleinwalsertal.

On the natural toilet

If you are looking for a quiet place, please be at least 50 m away from water. Bury excrement or cover it with a large stone. Use fallen

On tour with a dog

Are you always in control of your four-legged partner, even if he gets his nose for marmots, deer or other wild animals? You are both o attack by a grazing animal is foreseeable: leash off immediately. There are numerous dog stations in the valley for the disposal of dog and fields contaminates the feed and makes grazing cattle sick.

CONSCIOUS to each other

Consideration for other athletes and those looking for relaxation

Everyone loves to enjoy a special piece of earth for themselves. But most of the time we are not traveling alone. No problem, because manner, provide support when someone needs help and always give a smile. So nothing stands in the way of friendly cooperation and

Appreciating the preservation of the cultural landscape

Alpine landscapes are touching with their contrast: Imposing peaks and natural forests alternate with gentle valleys, well-tended me altitudes is no coincidence, but the result of an interplay of natural and cultural landscapes. Behind this is the work of farmers, alpine attractiveness of the recreation and leisure area and the diversity of species are preserved. We already say thank you if we stay on the

EXPERIENCE farsighted

Safe on tour - for you and others

Whether on a ski or snowshoe tour in winter or on a mountain tour in summer, anyone who is out and about in alpine terrain has to be the right equipment. Correctly assessing alpine dangers requires a lot of knowledge and experience. Why not learn from professional! For the planning of ski tours we recommend the maps of the German Alpine Club.
